ABOUT LAG

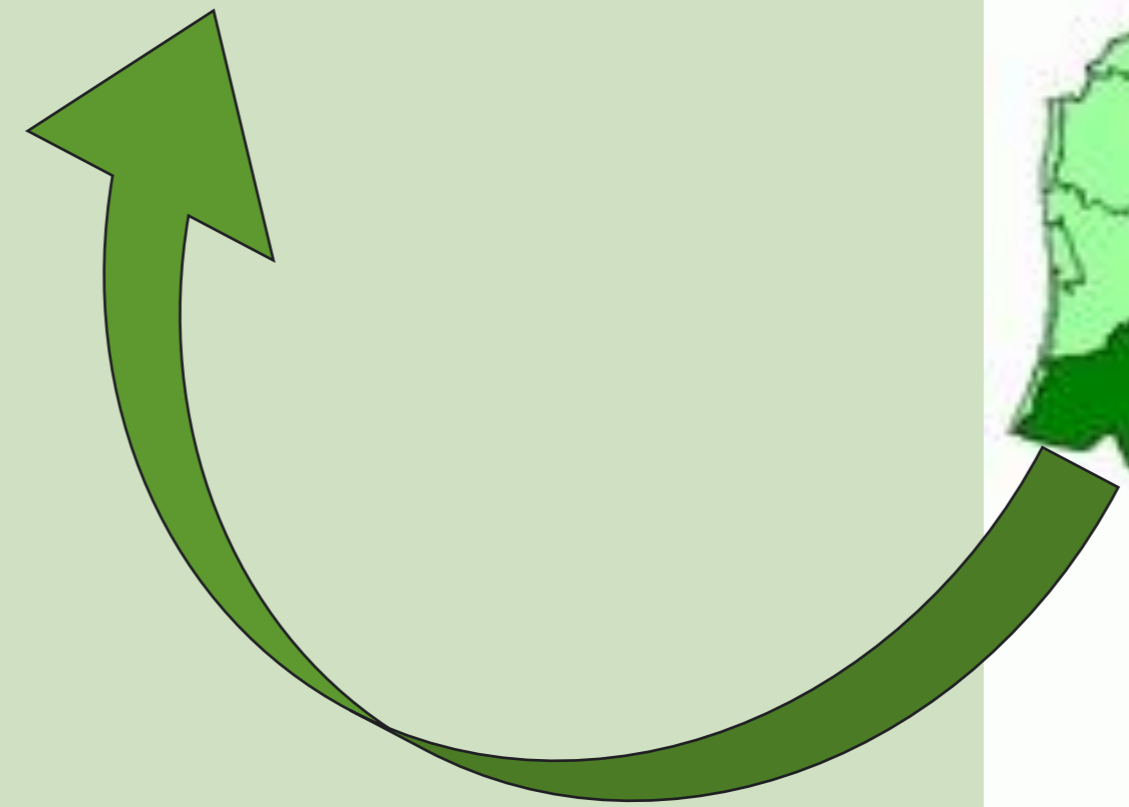

- Association was registered on 22th of July in 2004.
- The group of LAG founder consisted of 17 persons.
- LAG activities territory – area of Silute district municipality.

Why, "Lamata Land?"

The word "lamata" means a low, swampy area. Lamata land, as the land of Lithuanian seaside, was mentioned in the 13th century in the first half. It covered the lower reaches of Minija, Veivirzo, Tenenys and the Sysa rivers (about 500 square kilometers). The territory of Šilutė district also belonged to this territory. A separate ethnocultural group lived in Lamata land, which was a mediator between the scalpels and the Curonians (5-13 century).

Šilutė District Municipality - administrative-territorial unit in western Lithuania, near the Curonian Lagoon. In spring and autumn, the Nemunas waters cover large areas in Šilutė District Municipality, removing land transport connections to Rusnė (until May 2019) and other settlements or homesteads.

The main facts – Region of Silute

Territory of Silute
district municipality–
1714 km²

Inhabitants - 44 596

Caught territory -
Nemunas delta
regional park is located
in western Lithuania,
on the southeast coast
of the Curonian
Lagoon. Area is 288.7
km²
